EXPERIENCE

Software Developer

Aug 2021 – Aug 2022
Mysore, India

Zevcore PVT LTD

- One year of experience in developing UI and mobile applications in React and React native
- Implemented responsive and user-friendly interfaces, enhancing user engagement and satisfaction
- Ensured comprehensive documentation and generated detailed reports throughout all stages of the product life cycle, facilitating effective communication and providing valuable insights for informed decision-making.
- Utilised version control systems, such as Git, to manage and track code changes, enabling efficient collaboration and codebase management

Technical Consultant (Software Developer)

Aug 2022 – Present
Bengaluru, India

Agile IDC PVT LTD

- Developed and maintained mobile applications & web applications using React Native and React.JS, ensuring high-quality code and efficient performance
- Collaborated with cross-functional teams, including designers and backend developers, to deliver seamless user experiences and meet project objectives.
- Successfully migrated several projects from older versions of React Native to the latest release, leveraging updated features and enhancements to optimise functionality and deliver an improved user experience..
- Proficient in deploying applications to both Google Play Store and Apple App Store, ensuring successful distribution and availability to a wide user base.
- Leveraged Redux to efficiently manage transient app state, ensuring streamlined data flow and seamless user experiences.
- Took the initiative to proactively learn new technology(Flutter), independently developed applications using the framework, showcasing adaptability and a passion for continuous learning
- Volunteered to assist and mentor a junior developer in React Native development, providing guidance and support to foster their growth and proficiency in the field.

PERSONAL PROJECTS

1. *PortFolio*

March 2023 - April 2023

Tech Stack: React JS & React native

Bengaluru

Designed and developed a captivating portfolio showcasing my proficiency in React JS and React Native. Created a visually appealing user interface using Particles JS, enhancing the overall aesthetics and providing an interactive experience.

2. *Nutraceutical company website*

April 2023 - May 2023

Tech Stack: React JS

Bengaluru

Constructed a robust website showcasing the company's product offerings and factory machineries, highlighting their expertise in manufacturing high-quality nutraceutical products

3. *Task manager*

May 2023 - June 2023

Tech Stack: Flutter, Dart

Bengaluru

Constructed an Android application allowing the users to easily create, organise, and track their tasks. Implemented essential features like task creation, editing, marking completion also Implemented local push notifications using awesome notifications

4. *Pokedex*

June 2023 - July 2023

Tech Stack: React Native

Bengaluru

Constructed an Pokedex app using React Native, highlighting the seamless transitions and immersive animations achieved with React Native Shared Element. Users can explore a vast collection of Pokémon, enjoying a visually stunning and immersive experience.
